Languages: Arabic: Native · **French:** C2 (TCF 601/699) · **English:** B2 (TOEFL iBT 78/120) · **German:** A2 (currently learning)

EXPERIENCE

WinSoft Informatique	**Ariana, Tunisia**
Software Engineer	*Mar 2025 – Sep 2025*

- Developed a tablet module for WinSoft Garage Plus in the automotive repair domain, enabling customer and vehicle creation, photo capture with geolocation, full vehicle inspections, and digital client/receptionist signatures, which streamlined repair orders, and provided a faster, more transparent experience for clients and staff.
- Initiated a production management system module allowing task assignments, real-time tracking of work against standard labor times, and progress monitoring for clients and insurers, which improved workshop efficiency.
- Designed, developed, and deployed WinSoft's website, which enhanced online visibility and strengthened the company's brand image.
  Keywords: ASP.NET Core MVC · Entity Framework · SQL Server · JavaScript · DevExtreme · Git · Next.js · Shadcn/ui

Sibtel	**Tunis, Tunisia**
Software Engineer Intern	*Feb 2024 – Sep 2024*

- Developed a microservices-based archive consultation application for clearing processes, targeting Tunisian banks, which enabled secure management and billing of check image consultations and improved efficiency in clearing workflows.
  Keywords: .NET 8 · Entity Framework · SQL Server · CQRS · WinForms · Blazor · Syncfusion · RabbitMQ · NUnit · JWT · Elastic Search · Logstash · Kibana · Docker · GitLab CI/CD

PeakSource Technology	**Ariana, Tunisia**
Software Engineer Intern	*Jun 2023 – Aug 2023*

- Developed a web application for employee and HR management, which improved streamlined employee tracking.
  Keywords: Next.js · TailwindCSS · Git · MongoDB

Bee Coders	**Tunis, Tunisia**
Software Engineer Intern	*Jun 2022 – Aug 2022*

- Developed a web application for restaurant management, which streamlined order processing, optimized stock management, and facilitated reservation handling.
  Keywords: Spring Boot · Angular · MySQL · Git

PROJECTS

Deployed Java Application with CI/CD Pipeline	*Dec 2024 – Jan 2025*

- Implemented a fully automated CI/CD pipeline for a Java application as part of a self-learning project, reducing manual effort and accelerating delivery through versioning, Dockerization, and AWS EC2 deployment.
  Keywords: Java · Maven · Linux · Jenkins · Groovy · Docker · GitLab · AWS EC2 · SSH · Docker Compose

Portfolio	*Dec 2024 – Jan 2025*

- Delivered a personal portfolio website showcasing personal projects, skills, and achievements, which enhanced online presence, provided visitor insights, and strengthened professional branding.
  Keywords: Next.js · TailwindCSS · Three.js · Shadcn/ui · Umami · Vercel · Git

ACTIVITIES AND LEADERSHIP

Rotaract Phoenix Sud of Tunis (member)	*Sep 2022 – Jun 2023*

- Recognized as *Member of the Month (Mar 2023)* for leadership, teamwork, and community engagement.

Hobbies: Music · Football · Padel · Travel
